Forecast for Tuesday 25 Apr 2023

Weather: Clear skies and northerly winds give a cold and frosty start to Tuesday morning. A sunny yet chilly morning, with cloud filling in by around lunchtime, but remaining bright with occasional breaks in cloud allowing sunshine through at times. Feeling colder than normal, especially in shade and over exposed peaks.

Chance of cloud-free hill tops above 600m: Greater than 95%.

Low Cloud and visibility: Cloud filling in from mid-morning will comfortably be above summits, affording excellent views of surrounding peaks through the day.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Note the chill effect at higher elevations early on. UV levels are forecast to be Moderate, so where the sun is out during the morning and perhaps at times during the afternoon, extra sun protection is recommended.

Recent rainfall: measured at Malham: altitude 375m

02:00 on Tue 25 Apr 2023	0mm	1.8mm	14mm

Forecast for Wednesday 26 Apr 2023

Weather: Cloudy through the night and for much of Wednesday also, but likely remaining dry with a little brightness at times. Small chance for the odd isolated shower through the early afternoon. Breaks in the cloud during the evening should give some welcome late sunshine.

Maximum wind: South to southeasterly 5-10mph, becoming variable later.

Chance of cloud-free hill tops above 600m: 90%

Low Cloud and visibility: A cloudy day but cloud bases comfortably above summits, affording excellent views of surrounding peaks.

Temperature: **Valleys:** Plus 1 Celsius, rising to Plus 8 Celsius.
At 600m: Minus 1 Celsius, rising to Plus 4 Celsius.
Freezing level: Around 400m early, rising above summits by afternoon.
